

NATURAL AROMATIC WILDLIFE DETERRENT

HAN WILDLIFE PTE LTD

Human. Animal. Nature.

A practical aromatic deterrent range for everyday wildlife management

Our plant-based spray and herbal blend use naturally strong aromatic ingredients to help make selected spaces less attractive to common urban wildlife.

PLANT-BASED

COMMON WILDLIFE

MULTI-AREA USE

EASY TO APPLY

EASY TO REFRESH

HOW IT HELPS

Strong botanical aromas help create a less attractive environment around access points and activity areas. Suitable as part of routine property and wildlife management.

INGREDIENTS & TARGET AREAS

Clove, cinnamon, lemongrass and star anise. Intended for selected areas affected by snakes, monitor lizards, geckos and birds.

Entrances, corners, fence lines, garden edges and other selected areas where wildlife activity is observed.

HOW & WHERE TO USE

SPRAY

Shake well. Apply around entrances, corners, fence lines, garden edges and other areas of concern. Reapply when the aroma diminishes or after significant weather exposure.

HERBAL BLEND

Place in breathable sachets or suitable open containers near targeted areas. Keep dry and protected from rain. Refresh or replace when the aroma weakens.
